- **Guaranteed traceability of food and catering waste to compost**

- **Dedicated customer support**

The story so far...

HIGHLIGHTS

Operational efficiency

Competitive pricing

System tailored to customer needs

Extremely low contamination

Commercial food waste data

>>> Punctual and professional service

>>> Ability to compete with general waste

>>> High customer satisfaction

>>> Higher feedstock value

>>> Gathering of 'real-life' data

Critical Factors

Competitive pricing

In the current financial climate business customers will NOT buy your service if it is not a cost effective solution, regardless of environmental and social added values.

ABP Regulations

Constant consultation with regulatory agencies (SEPA, Animal Health) so to ensure that your operations are fully compliant with regulations. Food and Catering waste can be a dangerous beast...

Customer Focus

Effective, professional and punctual delivery of the service. Tailored system to suit operations of business customers.

Partnership Working

Joint approach to operations, sharing of data/expertise = invaluable contribution from experienced partners. Network organisations = they are there to help!!!

Questions?

Thank you
